

Homework - Data Visualization

Note: Submit your homework by pushing your code to your Gitlab account

A. REQUIRED PART

Please see a file attached called "Potentail_Bust_stops.csv" that contain the information as follows:

"Potential_Bust_Stops" - this is the list of potential bus stops. It is a list of intersections in the city.

Columns:

- **"Street_One"**: on of two streets intersecting
- **"Street_Two"**: the other street intersecting

Using markers and maps, please present those addresses to the map so we can visualize the potential bus stops.

Note: The above addresses are in San Francisco, USA
